

**COMMUNITY
HEALTH
ASSIST
SCHEME**

Use your Health Assist card to enjoy subsidies at General Practitioner (GP) and dental clinics near your home under the Community Health Assist Scheme (CHAS).

Have you **applied**
or **renewed**
your Health Assist card yet?

Pioneers can apply too! Those who qualify can enjoy **higher subsidies** at **subsidised SOCs***, on top of their Pioneer card benefits.

When I am sick, I prefer to see my **regular family doctor**, whom I am familiar with.

Grandma says that it is now more **affordable** to visit our doctor with CHAS!

Pick up an application form at any Community Club/Centre, Public Hospital or Polyclinic.

TO QUALIFY FOR CHAS:

- +** Singapore Citizen
- +** Household monthly income per person [^] is \$1,800 and below (for households with income)
- +** Annual Value (AV)[#] of home is \$21,000 and below (for households with no income)

[^] Household monthly income per person refers to the total household monthly income divided by total number of family members living together. For example: A family of four staying together with a combined monthly income of \$7,200 has a household monthly income per person of \$1,800 ($\$7,200 \div 4 = \$1,800$).

[#] The AV of your home is the estimated annual rent if it is rented out. It is assessed by IRAS. An AV of up to \$21,000 covers all HDB flats and some lower-value private residences.

* Pioneers who are successful in their CHAS application/renewal will automatically receive higher subsidies when they go to subsidised SOCs.
